

ATTIC MOLD REMOVAL EXPERTS

Certified Indoor Environmental

Certified Indoor Environmental offers quick, affordable solutions to mold problems. We identify and correct the cause of the mold. Unlike other companies, our non-destructive method means that we do not need to tear out attic sheathing or require you to vacate for an extended amount of time. Our method is about half the cost of replacing the materials and is guaranteed to remove all types of mold quickly and safely.

Breathe Easy With Certified

We offer the following services:

- Non-destructive Mold Remediation for Attics and Interiors
- Ventilation Analysis
- Indoor Air Quality Testing & Treatment
- Asbestos Testing & Abatement
- Water Mitigation

We have over
1,000

Certified's Method Versus Traditional Mold Removal

We treat the mold and remove the staining without sanding, encapsulating or painting over it. In most cases the attic sheathing will look **BRAND NEW!**

Also, due to our non-destructive mold remediation method, the attic sheathing does not need to be removed, therefore saving time and money!
